COLLECTION

ALESSANDRO BINI TESSUTI DAL MONDO

Developed with Italian flair

An evolution of style, functionality, and international vision. The new Tessuti dal Mondo 2026 collection marks a turning point: alongside the well-established upholstery fabrics, decorative curtains now take center stage, expanding creative possibilities in residential interior design.

All fabrics are sourced from top international suppliers, developed with Italian flair, and crafted with meticulous attention to both aesthetics and functionality.

Versatility, performance, and modernity are the key words of this new collection. Nature-inspired textures, linen effects, embossed patterns, and metallic touches blend with highly technical solutions such as **EASY-CLEAN** and **WATER & OIL REPELLENT** fabrics.

Two souls, one vision

Curtains

A contemporary selection ranging from natural linen effects to cashmere finishes, featuring refined textures and plays of transparency.

MIMOSA, CELIA, ZORA, EOS, DANICA, NEBULA... each curtain tells its own story, with modern color palettes, a soft hand, and strictly extra-wide widths.

Upholstery Fabrics

Technical, durable, soft, and beautiful to live with.

From suede-effect microfiber to yarns treated with nanotechnologies, the collection is enriched with iconic items like CLEAN, EASY, and CAMOSCIO, available in a wide range of colors to meet the most diverse design needs.

Curtains

MIMOSA

TMH010

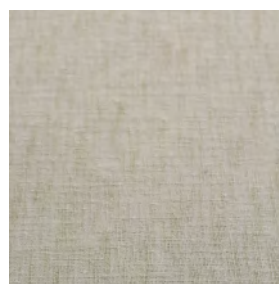

MIMOSA is a semi-transparent linen-effect curtain, characterized by subtle slub textures. Perfect for interiors with a natural feel, it is available in 15 trendy color variations.

Upholstery Fabrics

CLEAN

TM159

A structured upholstery fabric treated with **EASY-CLEAN** technology. Each individual yarn is coated with a protective layer that makes it harder for external substances to penetrate. As a result, even the most stubborn stains, such as ink, can be removed much more easily. Available in 16 on-trend color variants.

EASY

EASY-CLEAN

WATER & OIL REPELLENT

TM160

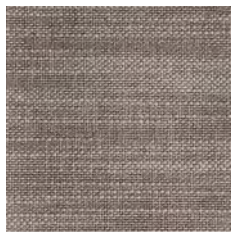

*A linen-effect upholstery fabric treated with **EASY-CLEAN** technology.*

*Each individual yarn is coated with a protective layer that makes it harder for foreign substances to penetrate. As a result, even the most stubborn stains, such as ink, can be treated much more easily. It is also **WATER & OIL REPELLENT**, thanks to a nanotechnology treatment that makes it resistant to water and oil.*

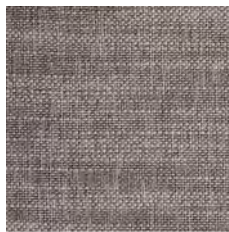

The water- and oil-repellent properties ensure that droplets do not settle on the fabric but glide off.

CAMOSCIO

TM154

An ultra-soft suede-effect microfiber.

Only by examining the back of the fabric—or having specific expertise in the leather industry—can one tell it is a textile.

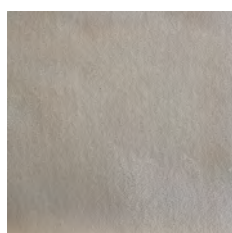

This item has undergone a nanotechnology treatment that makes it water-repellent.

Available in 24 colors to meet the most diverse market demands.

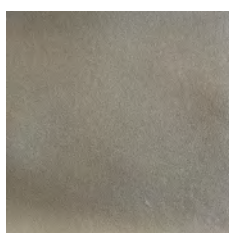

Perfect for both classic and contemporary interiors.
