ZAMORA FABRIC & WALLPAPER SS26

Zamora is a brand-new collection of fabric and wallpaper for SS26, celebrating world craft, colour, and the expressive interpretation of nature in design.

This luxurious collection of fabrics explores a fusion of global cultures, including embroideries and woven fabrics, demonstrating various weaving techniques. From Indian Kantha embroidery to Mexican tapestry weaving, Harlequin combines a fusion of globally inspired patterns for a uniquely special decorative story that uplifts interiors.

Mixing archival pieces and modern artistic paintings, Zamora tells a range of design stories within the contemporary interior, fulfilling our deep passion for bringing the outside world in. Traditional textile practices are honoured, while street art inspires some designs across fabric and wallpaper.

Stripes, florals, geometrics and abstract designs are featured, alongside bands of mesmerising patterns, referencing border designs discovered around the world.

Wallpapers, with a vivid, sophisticated, expressive, yet refined colour palette, echo this celebratory design statement. Brand-new designs reflect how nature is interpreted in textiles around the world, while luxurious fabrics pay homage to the intense weaving techniques and styles that inspire Harlequin as a studio.

Each design mixes a muted and elevated palette alongside the globally inspired design narrative, for a fresh new collection. These bespoke colours mix old and new worlds, elevating the collection and amplifying the techniques and qualities on display.

Flora Daly, Lead Designer at Harlequin, says, "Fresh, editorial and shining a spotlight on artistry and creative expression, Zamora is a global blend of so many of the styles and influences that Harlequin loves as a design studio. Traditional weaving techniques are explored in fabrics and wallpapers, with a contemporary vision. Digital printing brings the eclectic look to life in vivid colour, for a collection that is vibrant yet sophisticated in application. We're celebrating craftsmanship through a stylised lens with these modern interpretations for modern living."

Embrace modern interpretations of global styles this SS26 with Zamora.

ALL DESIGNS ARE CREATED IN THE HARLEQUIN DESIGN STUDIO. ALL PRINTED FABRIC AND WALLPAPER IS PRODUCED AT THE BRAND'S HISTORIC UK FACTORIES IN LOUGHBOROUGH AND LANCASTER.

Harlequin is a contemporary brand of creative integrity known for designing and making versatile, sophisticated, and expressive fabric and wallpaper. As a studio, Harlequin embraces an eclectic sense of style in interiors and empowers people to express their individuality through colour and design in their homes.

Taking inspiration from contemporary art and global influences, richly layered designs are revealed, providing endless inspiration for modern-day interiors that revel in self-expression.

With a refined approach to palette curation, the design team considers every shade and tone, hand-drawing and painting each design as an artwork before transforming them into highly textured fabrics and luxurious wallpapers that ignite the senses.
