AUTUMN WINTER
COLLECTIONS 2025

Elaris

A harmonious blend of tactile beauty & modern sophistication

This collection combines soft, organic textured weaves with clean, minimal embroideries, all designed to work effortlessly together. These are complemented by striking abstract geometrics, offering a perfect balance of simplicity and boldness.

With a versatile mix of large and small scale designs and a palette of earthy tones, Elaris brings depth, warmth, and effortless elegance to any space. The collection is created to layer patterns and textures for a space that feels curated, comfortable, and uniquely yours.

Tree of Life Juniper

Tree of Life

An effortless combination of history and timeless style

The Tree of Life collection celebrates centuries of artistry, drawing on and reinterpreting archive pieces from Central Asia. At its heart is a hand-painted archive design, refreshed with contemporary floral and leaf shapes, and enriched with fruits, pods, and butterflies.

The fabrics are strikingly detailed, featuring climbing branches and richly worked motifs. Prints are elevated with everything from crewel-stitched medallions, detailed embroideries, and colour palettes ranging from vivid jewel tones to softer neutrals.

House Prints

The perfect partner to the Tree of Life collection

The House Prints collection introduces a range of small scale designs created to pair effortlessly with the Tree of Life range. Coordinated through shared colour palettes, they bring balance to bolder patterns yet are versatile enough to stand alone in more pared-back schemes.

Inspired by traditional block printing, these designs have been carefully reimagined for the modern home. Scaled with precision and printed onto sustainable cotton, they offer adaptability and subtle charm, ideal for layering, mixing, or creating quietly elegant interiors.
