Fiorella Collection

The Fiorella collection captures a sense of natural elegance through intricate detailing, refined texture, and a beautifully balanced colour palette. Drawing on soft, organic influences, it brings together designs that make a bold, confident statement, creating a cohesive look that feels both elevated and refined.

Alessia, a dobby jacquard stripe with striking floral embroidery, sets the tone as a graceful and sophisticated statement design that feels both timeless and contemporary. The co-ordinating fabrics each bring their own personality: Joanie features an all-over embroidery using dip-dyed yarns, creating gentle colour movement and depth. Izzy, a matte velvet with a richly tactile surface, offers softness and versatility, ideal for both upholstery and curtaining. Gigi introduces a confident, tailored feel with its ottoman weave and ikat-style stripe, while Lyra provides a structured, geometric option. Marcie completes the collection with a fresh, delicate embroidered daisy motif.

The colour palette is harmonious and uplifting, blending sun-warmed tones and cool, botanical hues. Shades of Guava and Papaya sit beautifully alongside fresh notes of Aloe and Jade, while deeper accents of Indigo, Lagoon and Mocha ground the collection.

**The Alessa design combines dobby and embroidery techniques, so slight variations in spacing are natural and part of its handcrafted process.

+ The dip-dyed embroidery yarn creates natural variation in colour placement. While the design will pattern match, the colours may not align exactly, giving each piece its own unique character.

Fabrica can be treated to required FR standards on request.

*PATTERN REPEATS, JOINED WIDTHS AND PATTERN ALIGNMENT

Pattern repeats and widths are not exact and can vary by +/-1%. We cannot guarantee exact measurements. Please ensure that pattern alignment is adequate to produce a satisfactory result. Textiles are not completely dead. It is always possible that the pattern will not be completely square on the cloth. While every effort is made to avoid distortion, a commercial tolerance is to be accepted. Please check the pattern alignment is satisfactory before cutting and making. You do not want claims after the goods have been cut at all.
