TERRAIN 

THROUGH THE LOWLANDS, INTO THE WILD

TERRAIN explores the intersection of animal patterning and fashion-led expression, merging maximalist sensibilities with historical influence. Interpreted through a modern approach, the collection combines an abstract houndstooth with a check formation and a zebra design inspired by the untamed beauty of the natural world, layered with a subtle Celtic undertone.

SERENGETI W

The image shows four outdoor cushions with different bold patterns: a red and white wavy pattern, a grey and yellow striped pattern, a red and white wavy pattern, and a yellow and white wavy pattern. They are lying on a bed of tall green grass. A semi-transparent dark grey banner is overlaid on the bottom half of the image, containing white text.

BOLD PATTERN, UNTAMED TEXTURE, AND PRIMAL DESIGN

More than an outdoor collection, SERENGETI brings together four designs that celebrate bold expression and decorative texture. Created to shape a maximalist outdoor setting, the collection draws on an elemental theme, balancing rich tactility with confident pattern to deliver character and design-led impact across exterior and interior spaces.

AN ENDURING WEAVE OF STRUCTURE AND COLOUR, WHERE CRAFT MEETS MODERNITY

CAMBER draws inspiration from enduring weaving techniques, reimagining the classic basket weave with a contemporary edge. Irregular warp and weft yarns create a richly textured surface, while layered multi-tonal colour brings depth across both understated neutrals and bold palettes. The result is a fabric that feels grounded and enduring, influenced by wabi-sabi philosophy, Belgian minimalism and industrial styling.
